

K logix Incident Response Plan Review

While many organizations have incident response plans, knowing if they are ready to go when the worst happens is hard to recognize. K logix is pleased to offer our complimentary Incident Response Plan Review service so organizations can be confident that they are adequately prepared. By reviewing the current plan and comparing it to best practices and lessons learned from dozens of incidents, K logix experts can provide high-level guidance on your organization's data governance maturity and suggest areas for improvement.

-  Customer may submit their current Incident Response Plan (or mutually agreed upon similar document) to K logix for review.
-  K logix will review your current Incident Response Plan in alignment with industry best practice.
 - o K logix, in its sole discretion, may ask to setup a short thirty minute interview to clarify aspects of the Incident Response Plan.
-  K logix will Identify potential gaps and areas of improvement in your current Incident Response Plan and program as represented in the documentation.
-  K logix Consultant Provide recommendations for bolstering your Incident Response Plan and suggestions for overall program maturity.

Additional areas can be covered as mutually agreed upon, and services can be scheduled through your account executive. All deliverables are provided "As-is" and should not be considered legal advice. Further guidance requires additional review, scope of work, and agreement on legal terms.
